Important: Please ensure your iPhone is not jailbroken and has no other APN profiles installed on your iPhone, otherwise your Yokoso SIM might not work!

Go to Setting > General > Profile & remove any other APNs that are installed on your iPhone!

III. Activation

① Scan QR Code:
Please open up the camera, point, and tap on the notification banner to access the website.

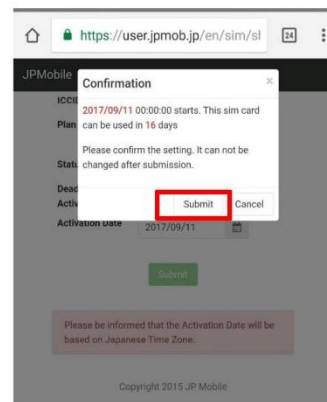

② Please enter or choose your activation date (the date you want to start to use) and click submit

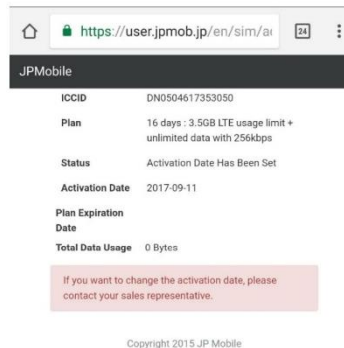

It can be anytime before deadline date.

II. Activation

③ It will be appeared for you to confirm, so please check the date again and click “submit”

④ This concludes the activation procedure.

End

After you come back to Singapore

For i phone users, please delete the installed APN profile
Go to Setting > General > scroll down & find APN profile
> Delete APN profile
